Hi there

I'm getting in touch on behalf of my employers at FoleyCrete. We are seeking to offer employment to a school leaver and we are reaching out as we know many young school students may not feel that continuing secondary education is right for them and with the support of their parents/caregivers and teachers look to leave and seek paid employment or an apprenticeship.

We would like to offer a couple of hard working, enthusiastic young people roles within our Hamilton based company - FoleyCrete, we are a reputable, family run concrete driveway fabrication business with over 30 years in the industry within the Waikato and BOP regions, you can find out more about what we do here at [www.foleytcrete.co.nz](http://www.foleytcrete.co.nz)

FoleyCrete are looking to expand our experienced team and are seeking a couple of fit and enthusiastic young people to work for FoleyCrete as trainee concrete placers. We wish to provide a young person with an opportunity to start a career with support and supervision to help them learn all the tricks of the trade, we would also look to offer the right person an apprenticeship  
(<https://bcito.org.nz/apprentices/careers/concrete/construction-placing-finishing/>)

The roles would be offered minimum wage as a start with regular performance reviews and opportunities for climbing the ranks and pay increases. Please do not hesitate to get in touch with us about the roles, if you have any students looking to apply please get them to send an email with their CV and a cover letter to [info@foleycrete.co.nz](mailto:info@foleycrete.co.nz) Attn: Tammy – Student seeking work

Kind regards

Tammy Gordon Admin/H&S Co-ordinator
